GLAD-I-SAW ACRES

— Spring of 1931 —

ERWIN D. CARY, Prop.

THIS IS ME—E. D.

Spring list of Gladiolus, so arranged that you can get wonderful values of many of the world's best prize winning glads, as well as some of the cheaper ones, AND TAKE NOTICE we have so arranged beautiful groups just right for the ordinary garden, and these are so arranged that they will bloom in rotation, so some will be open most of the time.

I want to tell you right here, I could be growing 500 kinds as well as not, but there are so many almost like the other ones that there is no use keeping track of imitations, BUT RATHER—select those that stand the test. Some have weak stems, some short bloom spikes, some crooked necks (Saxophones), and some burn in the sun and fade, so we have selected what we know stand up and win prizes. We will run shy this spring before the season is past, so better order early and play safe. All of these sold at dozen and down to single bulbs are sold PREPAID, delivered to your door. High class, treated and fed bulbs. full of blooms and ready to grow.

Glad-I-Saw Acres, Home of the Real Good Gladiolus

Says

Owing to the fact that we are a member of the Great American Gladiolus Society, and the Michigan Glad Society, quite naturally we are anxious to have that warm acquaintance that such persons deserve. So we sent word to you that we would on receipt of your name and address and the number of the society to which you belong, send you prepaid one small \$2 bulb of Glory of the U. S. A. and we have had thousands of orders to look after so we are a trifle late to get the bulb off in December as we had planned, but here it is; you have it. Now, when it gets warm next spring plant it in a good place and remember we have given you good people about 1,000 bulbs free, means \$2,000 free. That is more than the average man does for persons he never saw. But that is me,—E. D.—says-ee, and that is not all I shall do if you just give me a chance. Look over my offerings and send me an Order, leave the rest to me. Remember the Large Bulbs of U. S. A. are \$10 Each, yet, but we do not know what next year's prices will be. That rests with the future.

BEAR IN MIND

We cannot close without saying those societies banded together for the promotion of the world famous Gladiolus, are the very foundation of the success of the future, and thru deep study has brot out many points worth while. Just recently we received a letter from Australia from a member of the American Gladiolus society, who said they have a good society there and wished they had a secretary like Mr. Roscoe Huff of the American society (Pardon me, Mr. Huff) but when I know a man is good I like to tell it too; and we do know we have a good man at the wheel here.

HOPING

we shall hear from you and that we may serve you, we wish you much good luck and happiness.
